FARMERS' BULLETIN No. 501.—COTTON IMPROVEMENT UNDER WEEVIL CONDITIONS.

Introduction 5
Relation of improvement of foreign competition 6
A shorter season for the cotton crop 7
Protecting the early buds and bolls 8
Different kinds of earliness in cotton 10
Simultaneous planting of cotton 11
Cotton after winter crops 13
How cultural methods affect the quality of the fiber 14
Effect of weevil injuries on quality 15
Breeding earlier varieties of long-staple cotton 16
A new type of long-staple cotton from Mexico 18
Continued selection to preserve superior varieties 18
Finding markets for superior fiber 19
Conclusions 21

FARMERS' BULLETIN No. 502.—TIMOTHY PRODUCTION ON IRRIGATED LAND IN THE NORTHWESTERN STATES.

Introduction 7
Conditions under which timothy thrives 8
Timothy in mixture with clover or alfalfa 8
Timothy in mixture with clover 9
Timothy in mixture with alfalfa 11
Timothy and alfalfa compared with timothy and clover 13
Feeding value of timothy mixed with clover or alfalfa 13
Seeding timothy 15
Irrigation of timothy 17
Cultivation of established meadows 20
Fertilizers 20
Pasturing the meadows 21
Rotation of timothy with other crops 22
Weeds in timothy fields 23
Important injurious weeds 24
Harvesting 25
Baling the hay 28
Yield 29
Marketing 30
Grades of hay 30
Summary 31

FARMERS' BULLETIN No. 503.—COMB HONEY.

Introduction 5
Apparatus for comb-honey production 6
Hives 7
Manipulation of bees 18
Securing workers for the honey flow 20
Swarming 26
Manipulation of the supers 41

FARMERS' BULLETIN NO. 503.—COMB HONEY—Continued. Page.
Caring for the crop 44
Removing the honey from the hives 44
Care of comb honey 45
Scraping propolis from sections 45
Grading comb honey 46
Packages for comb honey 46
Marketing 47
FARMERS' BULLETIN NO. 504.—EXPERIMENT STATION WORK, LXX.
Improvement of sandy soils—growth of forage crops 5
Utilization of roughage 7
Fattening lambs on alfalfa and corn 8
Box for feeding alfalfa hay to swine 9
Cooperative herd testing 10
Cooperative cattle breeding 13
Losses due to low-grade cream 17
Lessening danger from poisoning by arsenical dips 19
Care of farm machinery 20
FARMERS' BULLETIN NO. 505.—BENEFITS OF IMPROVED ROADS.
Introduction 3
Economic advantages 3
Decrease in cost of hauling 3
Relation of roads to agricultural conditions 12
Increase in the value of farm lands 15
Increase of tourist travel 16
Social advantages 18
Improvement of schools and rural delivery service 18
FARMERS' BULLETIN NO. 506.—FOOD OF SOME WELL-KNOWN BIRDS OF FOREST, FARM, AND GARDEN.
Introduction 5
Three-toed woodpeckers (Picoides arcticus and P. americanus) 5
California woodpecker (Melanerpes formicivorus bairdi) 7
Lewis woodpecker (Asyndesmus lewisi) 8
Red-bellied woodpecker (Centurus carolinus) 10
Sapsuckers (Sphyrapicus varius, S. ruber, and S. thyroideus) 12
Hummingbirds (Archilocus colubris and Calypte anna) 15
Arkansas kingbird (Tyrannus verticalis) 18
Ash-throated flycatcher (Myiarchus cinerascens) 19
Western yellow-bellied flycatcher (Empidonax difficilis) 21
Horned lark (Otocoris alpestris) 23
Chipping sparrow (Spizella passerina) 25
Junco or snowbird (Junco hyemalis) 26
White-crowned sparrow (Zonotrichia leucophrys) 28
Southern butcher bird (Lanius ludovicianus) 29
Audubon warbler (Dendroica auduboni) 32
Ruby-crowned kinglet (Regulus calendula) 34
FARMERS' BULLETIN NO. 507.—THE SMUTS OF WHEAT, OATS, BARLEY, AND CORN.
Introduction 5
How to know the different smuts 6
Smut characteristics and life habits 10
The prevention of smuts 14
Treatments for stinking smut of wheat, smut of oats, and covered smut of barley 15

Page.

FARMERS' BULLETIN No. 507.—THE SMUTS OF WHEAT, OATS, BARLEY, AND CORN—Continued.
Treatment for the loose smuts of wheat and barley 26
Prevention of the smut of corn 28
Eradication of smuts by organized effort 28
Summary 30

FARMERS' BULLETIN No. 508.—MARKET HAY.
Introduction 5
Classes of hay producers 6
Demand for different grades of market hay 7
Supply of different grades of hay in the markets 8
Reasons for existing conditions in the supply of market hay 8
Methods of baling hay 12
Types of baling presses 16
Sizes of bales in the markets 20
Sizes of hay presses 21
Marking the weight of bales and its effect on prices 22
Shipping hay to the market 23
Methods of handling and storing hay in the markets 25
Conditions existing in the leading hay markets 29
Summary 37

FARMERS' BULLETIN No. 509.—FORAGE CROPS FOR THE COTTON REGION.
Introduction 5
Soils 5
Grasses 7
Legumes 21
Miscellaneous forage crops 33
Hay crops 36
Pastures 41
Silage crops 43
Soiling crops 44
Making hay 44
Recommendations by agriculturists of southern experiment stations 45

FARMERS' BULLETIN No. 510.—GAME LAWS FOR 1912.
Introduction 3
Legislation of 1912 3
Open seasons 10
Shipment of game 25
Sale 32
Limits 36
Licenses for hunting and shipping game 39

FARMERS' BULLETIN No. 511.—FARM BOOKKEEPING.
Introduction 5
Difficulties of farm bookkeeping 6
Types of farm bookkeeping 6
Simplifying the record work 7
What accounts to keep 8
Farm inventory 9
Cash accounts 15
What constitutes farm profit 20
Labor records 22
Records of separate farm enterprises 26
Live-stock records 30

Page.

FARMERS' BULLETIN No. 511.—FARM BOOKKEEPING—Continued.
Live-stock production records 33
Feeding records 34
Interpretation and use of farm accounts 35
Summary 36

FARMERS' BULLETIN No. 512.—THE BOLL WEEVIL PROBLEM, WITH SPECIAL REFERENCE TO MEANS OF REDUCING DAMAGE.
Introductory 5
Damage 6
Prospects 8
Work upon which this bulletin is based 9
Description and life history of the boll weevil 10
Hibernation 13
How nature assists in destroying the boll weevil 15
Dissemination 17
Means of control 18
Summary 45
Special treatment of small areas 46

FARMERS' BULLETIN No. 513.—FIFTY COMMON BIRDS OF FARM AND ORCHARD.
Introduction 3
Bluebird 7
Robin 7
Russet-backed thrush 8
Ruby-crowned kinglet 8
Chickadee 9
White-breasted nuthatch 9
Brown creeper 10
House wren 10
Brown thrasher 11
Catbird 11
Mocking bird 12
Myrtle warbler 12
Loggerhead shrike 13
Barn swallow 13
Purple martin 14
Black-headed grosbeak 14
Rose-breasted grosbeak 15
Song sparrow 15
Chipping sparrow 16
White-crowned sparrow 16
English sparrow 17
Crow blackbird 17
Brewer's blackbird 18
Bullock's oriole 18
Meadow larks 19
Red-winged blackbird 19
Bobolink 20
Common crow 20
California jay 21
Blue jay 21
Horned lark 22
Arkansas kingbird 22
Kingbird 23

Page.

FARMERS' BULLETIN NO. 513.—FIFTY COMMON BIRDS OF FARM AND ORCHARD—Continued.

Nighthawk 23
Flicker 24
Yellow-bellied sapsucker 24
Downy woodpecker 25
Yellow-billed cuckoo 25
Screech owl 26
Barn owl 26
Sparrow hawk 27
Red-tailed hawk 27
Cooper's hawk 28
Mourning dove 28
Ruffed grouse 29
Bobwhite 29
Killdeer 30
Upland plover 30
Black tern 31
Franklin's gull 31

FARMERS' BULLETIN NO. 514.—EXPERIMENT STATION WORK, LXXI.

Improved varieties of timothy 5
Hardy alfalfa 13
Harvesting, thrashing, and storing soy beans 18
Soy beans for silage 22
Fat in milk of cows at time of calving 23
Clean cream 24

FARMERS' BULLETIN NO. 515.—VETCHES. WITH A CHAPTER ON VETCH SEED AND ITS ADULTERANTS.

Introduction 7
Common vetch 7
Hairy vetch 17
Narrow-leaved vetch 21
Black bitter vetch 21
Purple vetch 22
Scarlet vetch 22
Narbonne vetch 22
Woolly-podded vetch 23
Vetch seed and its adulterants 23
Summary 27

FARMERS' BULLETIN NO. 516.—THE PRODUCTION OF MAPLE SIRUP AND SUGAR.

Introduction 5
Sugar maples 6
Sugar groves 9
Tapping the trees 18
Apparatus used in the maple industry 20
Maple sap 30
Process of manufacture of maple sirup 32
Canning and storage 37
Manufacture of sugar from maple sirup 38
Storage of maple sugar 40
Economic considerations 40
Statistics of the maple sugar and sirup industry in the United States 44

FARMERS' BULLETIN No. 517.—EXPERIMENT STATION WORK, LXXII. Page.
Promoting the germination of seeds 5
Cotton anthracnose 6
Asphaltum treatment for the peach-tree borer 8
Raising and finishing beef calves on the same farm 8
Open-shed feeding of steers 10
Profitable systems of dairy farming 11
Market eggs and their improvement 13
Uses of the sweet potato 16
Vinegar making from waste grapes 19
Lighting farm houses 21

FARMERS' BULLETIN No. 518.—WINTER BARLEY.
Introduction 5
Varieties of winter barley 5
Areas of culture 7
Soils adapted to the crop 7
Fertilizers and manures 8
Rotations with reference to barley 9
Preparation of the seed bed 11
Preparation of the seed 12
Sowing the seed 12
Cultivation 14
Harvesting the crop 14
Uses of winter barley 15
Improvement of the crop 17

FARMERS' BULLETIN No. 519.—AN EXAMPLE OF INTENSIVE FARMING IN THE COTTON BELT.
Introduction 5
The condition of the farm in the beginning 6
The soil and its improvement 7
The crop-rotation system 8
The farm income 11
Conclusion 12

FARMERS' BULLETIN No. 520.—THE STORAGE AND MARKETING OF SWEET POTATOES.
Introduction 5
The construction of storage houses 6
Varieties of sweet potatoes for marketing 10
Harvesting sweet potatoes 11
Storing the roots 13
Marketing sweet potatoes 14
Summary 16

FARMERS' BULLETIN No. 521.—CANNING TOMATOES AT HOME AND IN CLUB WORK.
Introduction 5
I.—Canned tomatoes, catchup, chowchow, etc 7
Canning tomatoes in glass jars 7
Sterilization 9
Kinds of containers in use 11
Uses of tomatoes 12
Recipes for tomatoes 13
II.—Canning tomatoes in clubs and for market 19
Introduction 19
Portable home canning outfits 19

	Page.
FARMERS' BULLETIN No. 521.—CANNING TOMATOES AT HOME AND IN CLUB WORK—Continued.	
II.—Canning tomatoes in clubs and for market—Continued.	
Using the home canners	22
Program for canning tomatoes at home	23
Definitions of canning terms	23
A few essentials for successful canning	24
Suggestions for home and club canning	25
Useful tables for the canner	26
Some possibilities of the canning work	28
Cooperative canning demonstrations	33
Grading and crating canned tomatoes	34
Finding a market	34
Canning results in 1911	35
FARMERS' BULLETIN No. 522.—EXPERIMENT STATION WORK, LXXIII.	
Still for alkali water	5
Importance of draining wet soils	5
Marrow cabbage	7
Feeding beef cattle in the South	11
Town and country poultry raising	17
Cost of producing milk	18
Milk-powder starters in creameries	19
Sheep-branding paints	20
Cooperation among fruit growers	21
FARMERS' BULLETIN No. 523.—TOBACCO CURING.	
Introduction	4
The ripening of tobacco	4
Nature of the curing process	5
Curing picked leaves compared with curing on the stalk	6
Air curing	7
Flue curing	17
Fire curing	22
FARMERS' BULLETIN No. 524.—TILE DRAINAGE ON THE FARM.	
Need of drainage	5
Ideal system of drainage	5
Kinds of tile in use	8
Locating the tile drain	11
Preparing to lay the tile	14
Laying the tile	19
How water enters the tile	21
Life of a tile drain	21
Use of silt basins or sand traps	22
Protection of the mouth of a drain	22
Lands that require artificial drainage	22
Cost of tile drainage	24
Benefits of drainage	25
FARMERS' BULLETIN No. 525.—RAISING GUINEA PIGS.	
Introduction	3
Wild cavies	4
The domestic cavy	4
Guinea pigs as pets	5
Guinea pigs as food	5
Scientific use for guinea pigs	6
Management of guinea pigs	7
Conclusion	12
